

English

La Salle College Preparatory's English Department is committed to developing each student's appreciation of literature, depth of critical thinking, and mastery of the art of written communication and analysis. We offer a program dedicated to studying a broad range of themes, genres, and time periods, and employ a variety of teaching methodologies to accommodate the learning styles of all our students.

Our four-year curriculum encompasses World, British, and American Literature, culminating in the senior year with courses devoted to contemporary themes in canonical and contemporary texts.

While all students have the opportunity each spring semester to advance into Honors English if they meet the prerequisites, juniors and seniors may also enroll in AP Language and AP Literature.
