

Global Devotion Association

To learn what needs to be learned; To contribute what has been learned

Global Devotion Association (GDA, Taiwan) is founded in 2017. It is dedicated to cultural conservation and hopes to provide volunteer opportunities for Taiwanese students to exercise meaningful actions—giving back to society through exchanging cultural experiences and helping minority groups.

GDA is devoted to encourage young volunteers to experience and participate different cultures and lifestyle, to develop students' interests and appreciation in the diversity and uniqueness of Taiwan, and to allow students to learn while giving back to the communities.

It also advocates to introduce and promote Taiwan's diverse aboriginal groups to the world, hoping to conserve these precious cultures through volunteer services and cultural exchange.
